

Meet Our First
Grant Recipient

**Beverley Ramsay, Career Facilitator
Johnston Heights Senior Secondary
Surrey, BC**

“ Our school is an inner-city school and we have some students in need. We discovered this fact when we sent our students to their job and work experience interviews. When reviewing proper dress we found that some of our students did not have dress shirts, jackets, ties or even acceptable office wear. This grant will help their teacher provide the necessary attire. We also are going to purchase steel-toed boots and required safety gear for students who are going to trade placements. We at JH would like to take this opportunity to thank the High School Head Start program and especially Angela Ferguson who believes in giving back to our schools. BRAVO!!! ”
